PROFESSIONAL SUMMARY

Master's student in Information Technology Management with strong research, analytical, and data-driven problem-solving skills. Experienced in software development, data analytics, and digital tools including Python, SQL, and data visualization. Demonstrated leadership as President of the Indian Student Association, fostering multicultural collaboration and inclusive community engagement. Passionate about applying digital technologies, artificial intelligence, and data-driven insights to strengthen public policy, governance, and service delivery in developing countries.

EDUCATION

Master's in Information Technology Management

Aug 2024 – Feb 2026

Concordia University | St. Paul, Minnesota, USA

- Relevant coursework: Data Analytics, IT Governance, Digital Strategy, Project Management

Bachelor's in Information Technology

Sep 2019 – Sep 2023

Apollo Institute of Engineering and Technology | Ahmedabad, India

- Built foundation in software engineering, database management, and web technologies

TECHNICAL SKILLS

Data Analytics & Visualization: Python (NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn), SQL, Dashboard Development

AI & Machine Learning: TensorFlow, Keras, CNNs, Transfer Learning, OpenCV, Regression, Classification, Clustering

Web Development: HTML, CSS, JavaScript, Python (Flask/Django basics), Responsive Design

Tools & Collaboration: Git, GitHub, Microsoft Office Suite, Microsoft Teams, Agile Workflows

EXPERIENCE

Student Assistant – Student Support Services

Sep 2024 – Feb 2026

Concordia University | St. Paul, MN

- Maintained and updated 500+ student records across administrative databases with 100% accuracy, ensuring timely access to information for staff and advisors
- Handled 30+ student inquiries daily via phone, email, and in-person, resolving issues related to academic resources, enrolment, and campus services
- Served a diverse, multicultural student body, adapting communication styles to support international students with varying English proficiency levels
- Identified gaps in the information referral process and created a quick-reference guide for common queries, reducing average response time
- Coordinated with multiple departments including admissions, financial aid, and academic advising to ensure students received accurate and timely information

Web Developer Intern

Jan 2022 – May 2023

Palladium Hub | Ahmedabad, India

- Contributed to the design and development of 3+ web applications, delivering functional features across front-end and back-end using Python, JavaScript, HTML, and CSS
- Wrote clean, reusable code following best practices, participating in code reviews and version control workflows using Git and GitHub
- Debugged and resolved 50+ front-end and back-end issues during development cycles, reducing bug backlog and improving application stability
- Conducted user testing sessions to gather feedback on application features, translating insights into UI/UX improvements

- Actively participated in Agile sprint planning, daily standups, and retrospectives as part of a cross-functional development team
- Assisted in deploying application updates to production environments, ensuring minimal downtime and smooth release cycles

CERTIFICATIONS

- Data Science Certification – TOPS Institute (Expected 2026)
- Leadership Development Certificate – Apollo Institute of Engineering and Technology (2022)
- Web Development Certification – Hi-Tech Institute (2021)

LEADERSHIP & COMMUNITY ENGAGEMENT

President – Indian Student Association

Sep 2024 – Feb 2026

Concordia University | St. Paul, MN

- Led a multicultural student organization, planning events that promoted diversity, equity, inclusion, and cross-cultural dialogue
- Coordinated outreach campaigns, strategic communications, and partnership development with campus and community stakeholders
- Managed event logistics, budgets, and team coordination, demonstrating project management and organizational leadership
